Subject: FW: key product clearance
Attachments: Reyes_MCR_abstract 04242017.docx

FYI. I asked Jen to send to Kris (which she has done!) since she wasn't on the original list. Just so that she's in the loop. I wanted to ensure that it didn't contradict anything the phthalates team is doing..
Mike

Subject: key product clearance

Hi Kris,

I am writing to let you know that a key product will be coming up for clearance in early June. I emailed John, Tina, and Lou about the product this morning and am looping you in as well, because it may be relevant to the IRIS assessments. This is a paper by Jeanette Reyes (ORISE post-doc) and Paul Price (NERL), and the key product is under HHRA Task 6.4 (HHRA 3.234). A draft abstract is attached. The manuscript is almost complete, and the authors plan to get a quick turn-around on the technical review in mid-May. This key product has a Q3 deadline (i.e., the manuscript has to be submitted to a peer-reviewed journal by June 30), so we will need to expedite it through STICS.

Thank you so much,
Jen Richmond-Bryant
